**Rebate Details**

Xcel Energy issues cash rebates in the form of checks, not utility bill credits. Xcel Energy is not responsible if your contractor provided inaccurate information about the amount and/or conditions of the actual rebate or equipment eligibility.

**Application Details**

Qualifying equipment must be purchased and installed between January 1, 2013, and December 31, 2013. Account holder applications must be POSTMARKED by July 31, 2014.

No phone calls will be accepted to provide equipment verification.

An application that is denied due to equipment ineligibility will not be accepted with changed model numbers.

A copy of the dated sales receipt or invoice must accompany complete information on the front of this form. The product invoice must specify all required information. Failure to complete this information will result in a returned application.

Xcel Energy reserves the right to refuse payment and participation if the account holder or contractor violates program rules and procedures. Xcel Energy is not liable for rebates promised to account holder as a result of a contractor misrepresenting the program. Xcel Energy does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties).

**All information on the receipt or invoice must match the information on the rebate application or the application will not be processed.**

We reserve the right to conduct random inspections to verify installation of the rebated equipment at the address indicated on the front of this form. If we select your application for a random inspection, the rebate application will not be processed until the inspection has been satisfactorily completed. Inspections may also be performed after rebate payment at Xcel Energy's discretion.

**Limitations**

Rebate qualifications and amounts are subject to change anytime. Our rebate programs may be cancelled with 30 days notice.

Please visit us at [xcelenergy.com/HomeRebates](http://xcelenergy.com/HomeRebates) or call 1-800-895-4999 to determine whether any program changes have occurred.

**Special Promotions**

During special promotions for this program, it is the account holder/contractor's responsibility to ensure all paperwork is postmarked by the deadline. Xcel Energy will not pay special promotion incentive dollars in the event that a form is lost or not postmarked by the deadline. No exceptions. Promotional rebate amounts will be automatically calculated by Xcel Energy. Promotion deadlines close at midnight on the date the application is due, with no exceptions.

**Help With Forms**

If you are building a new home, you must obtain a sales receipt for the equipment from your builder or retailer. Only one rebate per piece of equipment will be paid.

Rebates for new home construction should be negotiated between the builder and resident or new home buyer to determine who receives the rebate.

If you have questions while filling out this form, please contact your HVAC contractor or retailer for assistance. Please allow at least six to eight weeks for your rebate to arrive.

**Qualifying Account Holders**

Xcel Energy natural gas or electric residential account holders in Colorado are eligible for rebates when buying qualifying, high-efficiency, gas or electric water heaters (reconditioned equipment is not eligible).

The program is applicable only for the purchase and installation of qualifying new water heaters sold by participating contractors or retailers for installation in new or replacement applications where natural gas or electric is supplied by Xcel Energy.

If more than one unit is installed at an address, one application per unit is required to receive a rebate for each unit. Participants understand they are not eligible to receive a rebate for this improvement earned under a different Xcel Energy Rebate program.

EQUIPMENT	EFFICIENCY RATING	REBATE
Standard Water Heater	.62 EF	\$25
Standard Water Heater	.65 EF	\$70
Standard Water Heater	.67 EF	\$90
Tankless Water Heater	.82 EF	\$100
Electric Heat Pump Water Heater		\$450

Note: Local, state or federal tax credits or rebates may also be available for energy-efficient home improvements. Ask your tax advisor or visit [www.energystar.gov](http://www.energystar.gov).

**Qualifying Equipment**

**Only equipment listed on the AHRI site ([ahridirectory.org](http://ahridirectory.org)— residential section only) or ENERGY STAR® site ([energystar.org](http://energystar.org)) are eligible for rebate.** Efficiency ratings are determined using the Air-Conditioning, Heating, and Refrigeration Institute (AHRI). Indirect units are not eligible.

Submitting an AHRI or ENERGY STAR certificate with your application and invoice is highly recommended. The AHRI list of qualifying equipment changes frequently. AHRI certificates that are printed, within two weeks of the installation date, and sent in with the rebate application will be honored even if the equipment is no longer listed on the website list.

Please include the items listed below on your application form and purchase receipt. If all of the items are not included the application will be returned.
